Approved For Release 2009/07/09 : CIA-RDP80-00765A000100050045-0

22 January 1960

Mr. John T. Campbell, Head
BBC Monitoring Service
Caversham Park, Reading Berks
England

Dear John:

STAT has asked me to tell you that he plans to make a round-the-world inspection trip to the FBIS stations in the spring of this year, to include the London Bureau. One of his stops will be Nigeria, where he will inspect the site of our proposed station at Ibadan and will consult the local officials. He will pass through Nairobi en route to Nigeria, and with your concurrence, would like to meet any of your BBC people who may be there at the time. Their ideas and advice would be of great interest to him.

STAT will travel westbound. He expects to be in Nairobi around the end of March and in England in mid-April. He is looking forward to seeing you.

Sincerely,

STAT

Chief, FBIS

cc: OO
Chief, London Bureau
